

PI Name/Acct/Contact Info	Case Number (Lab Use Only)
	PI/Submitter Name
	Sample ID
	Species/Breed
	Age/Sex
	Collection Date
If submitting multiple samples, please indicate all IDs in this area:	

✓	Test	Sample
	Complete Blood Count (CBC)	0.1ml whole blood (EDTA or heparin)
	Platelet Count	0.1ml whole blood (EDTA or heparin)
	Basic Mammal Chemistry Panel	0.2ml serum or plasma
	Advanced Mammal Chemistry Panel	0.25ml serum or plasma
	UM Brief Panel	0.25 ml serum or plasma
	UM Panel	0.4ml serum or plasma
	UM Panel Plus	0.5ml serum or plasma

Make sure to adequately mix EDTA or heparinized tubes to prevent clot formation. For chemistry panels, serum should be allowed to clot and then separated by centrifugation.
